Mr. Wisut Piewkham

Background

With over a decade of experience in IT industry, Wisut has depth and breadth of knowledge mainly in Network security, WAN optimization, Networking and related technologies. His experience in IT projects for large enterprises and telecommunications includes design, implementation and maintenance of network infrastructure, firewalls and security technologies.

Wisut has a long experience delivering Juniper Networks training for several well-known companies and organizations including government sectors in Thailand. He is currently a Juniper Networks Certified Instructor (JNCI) holding several Juniper Certified Specialist and Professional certifications. He has a wide range of experience with Juniper Networks technologies including, JUNOS, SRX Firewall, Network Access Control, SSL VPN (MAG), IDP and Juniper management software.

In addition, he holds other world class IT vendor certifications such as Cisco Systems, Palo Alto Networks, Hewlett Packard (HP) and others with a long list of training and teaching experiences relating to his knowledge, skills and certifications.

Wisut is a great instructor who always creates a welcoming learning environment for all students. He values students' ideas and opinions thus students usually feel free to express their feelings and ask questions during his class. He has his own passion of learning and loves to inspire students with his passion for education. He constantly renews himself as a professional to provide students with the highest quality of teaching and learning experience with him.

Education
- Mahidol University, Master degree in Computer Science
- Siam University, Bachelor degree in Computer Engineering

Professional Certification Achievements

Juniper Networks Certification(s):
- Juniper Networks Certified Instructor (JNCI)
- Juniper Networks Certified Associate Junos (JNCIA-Junos)
- Juniper Networks Certified Specialist Security (JNCIS-SEC)
- Juniper Networks Certified Professional Security (JNCIP-SEC)
- Juniper Networks Certified Specialist Enterprise Routing and Switching (JNCIS-ENT)

Cisco Systems Certification(s):
- Certified Cisco Systems Instructor (CCSI)
- Cisco Certified Design Associate (CCDA)
- Cisco Certified Network Associate – Routing and Switching (CCNA R/S)
- Cisco Certified Network Associate - Security (CCNA Security)
- Cisco Certified Network Professional – Routing and Switching (CCNP R/S)

Palo Alto Networks Certification(s):
- Palo Alto Networks Certified Network Security Instructor (PCNSI)
- Accredited Configuration Engineer (ACE)
- Palo Alto Networks Certified Network Security Engineer (PCNSE)

Secure Computing Certification(s):
- IronMail Certificated System Administrator (ICSA)
- IronMail Certificated Advance System Administrator (ICASA)

CompTIA Certification(s):
- CompTIA Security+
- CompTIA Cybersecurity Analyst (Cysa+)
- CompTIA Security Analytics Professional (CSAP)

Training & Teaching Experiences

Juniper Training Course(s):
- Introduction to the Junos Operating System (IJOS)
- Junos Routing Essentials (JRE)
- Junos Space Essentials (JSE)
- Junos Security (JSEC)
- Advanced Junos Security (AJSEC)
- Junos Intermediate Routing (JIR)
- Junos Service Provider Switching (JSPX)
- Junos MPLS Fundamentals (JMF)
- Introduction to JUNOS Software
- Implementing Juniper Networks Enterprise Switches EX
- Implementing Juniper Networks Junos Pulse Access Control Service
- Implementing Juniper Networks Junos Pulse Secure Access
- Implementing Juniper Networks Advanced Junos Pulse Secure Access
- Implementing Juniper Networks Junos Space
- Implementing Juniper Networks Junos Space Network Director
- Implementing Juniper Networks Junos Space Security Director
- Implementing Juniper Networks Security Manager Fundamentals
- Implementing SRX-series Services Gateways
- Implementing SRX-series Next-Generation Services Gateways
- Implementing SRX-series Services Gateways with Unified Threat Management
- Implementing Advanced SRX-series Services Gateways
- Implementing Juniper Networks STRM Threat Management
- Implementing Juniper Networks Secure Analytics and Logging

- Implementing Juniper Networks Firewall/IPSec VPN
- Implementing Juniper Networks Advanced Firewall/IPSec VPN
- Configuration of Juniper Intrusion Detection and Prevention

Other Training Course(s):
- Interconnecting Cisco Networking Devices Part 1 (ICND1)
- Interconnecting Cisco Networking Devices Part 2 (ICND2)
- Designing for Cisco Internetwork Solutions (DESGN)
- Implementing Cisco IP Routing (ROUTE)
- Implementing Cisco IP Switched Networks (SWITCH)
- Troubleshooting and Maintaining Cisco IP Networks (TSHOOT)
- Implementing Cisco IOS Network Security (IINS)
- CompTIA Security+ (Security+)
- CompTIA Cybersecurity Analyst (Cysa+)
- Pala Alto Netwoks - Firewall Installation, Configuration, and Management: Essentials I
- Pala Alto Networks - Firewall Installation, Configuration, and Management: Essentials II
- Firewall 8.0: Configuration and Management
- HP ArcSight Logger
- HP TippingPoint and SMS
- HP Fortify Static Code Analyzer
- HP Fortify WebInspect DynamicTesting
- A10 AX and Thunder Application Delivery Controller
- IronMail System Administration
